About

The Dun Laoghaire Rathdown Public Participation Network (DLR PPN) is the umbrella network of Community & Voluntary, Social Inclusion and Environmental groups in Dun Laoghaire-Rathdown. Membership is diverse and includes local community and volunteer groups such as active retirement groups, men's sheds, residents' associations, scout and guide groups, chess and bridge clubs, sporting, as well as environmental and social inclusion groups operating in DLR county.

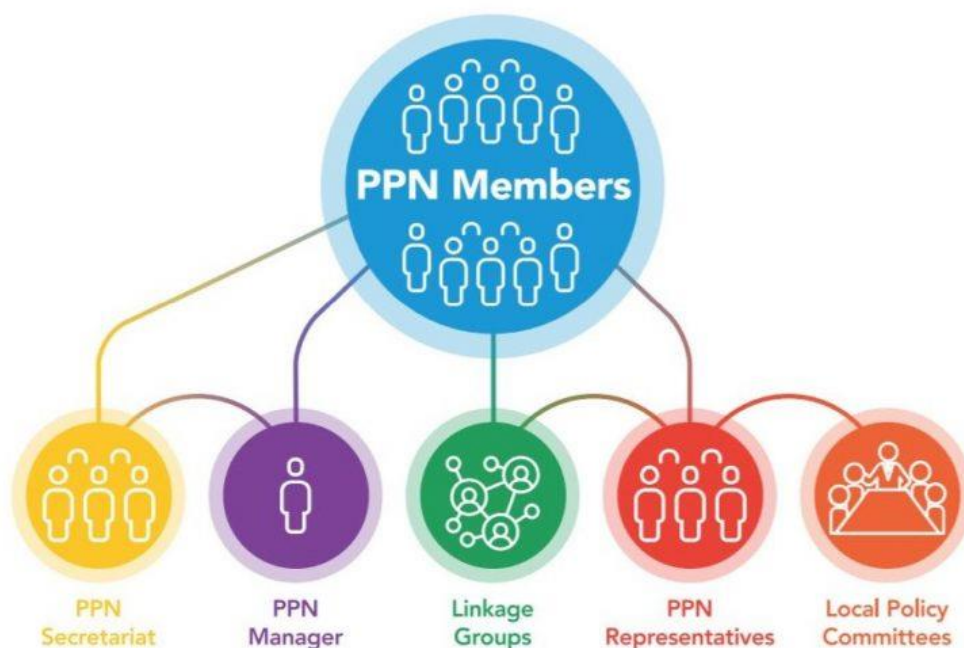

Member groups are provided with opportunities for networking, learning, communication and sharing of information which leads to participation in local decision making and collective action. Free training is open to all our members in areas such as digital skills & technology, governance, committee skills, and funding. Regular workshops, linkage groups and public consultation meetings are held to ensure that members' voices are heard. Representatives [REPS] sit on the local government committees which cover these policy areas: Community, Culture & Wellbeing, Economic Development and Enterprise, Environment and Climate Action, Housing, Planning and Transportation and Marine Strategic Policy Committees and the Local Community Development Committee.

Our aims are:

- To facilitate communication between community groups and DLR County Council.
- To give voice to a diverse range of views and interests within the local government system and participate in policy making.
- To strengthen the ability of people, via structured groups and organisations, to contribute in a positive way to the community in which they reside or are active within.
- To act as an information hub for local community and voluntary, environmental, and social inclusion groups and organisations.

- To actively support the local community during challenging times e.g as a member of the local Community Stakeholder Forum during the initial stages of the pandemic.

Membership is free to groups in the Dun Laoghaire Rathdown area who fulfil the membership criteria. All ages and abilities are welcome. Further information: www.dlrppn.ie or email enquiries@dlrppn.ie.

The DLR PPN membership is divided into three categories called pillars-Community & Voluntary, Social Inclusion and Environment. The activities are overseen by a Secretariat of 9 members elected by groups who enjoy full membership of the network. Representatives are elected by the pillar members to Dun Laoghaire-Rathdown County Council committees and boards.

The DLR PPN identifies issues that matter and through member input seeks to influence policy in a way that improves the quality of life and opportunities for people within the Local Authority area of Dún Laoghaire Rathdown.

DLR PPN is committed to working in an open, inclusive, and transparent manner on behalf of all member groups.

DLR PPN Secretariat & Staff Message

In 2022 the DLR community tentatively started to move forward and return to our pre covid activities and way of life. We held our first in person Plenary meeting since 2019 and had a meeting of the REPS. Membership continues to grow.

A sincere thank you to all who participated in PPN activities and to those who provided news items for the monthly ezine which provides a useful platform for groups to promote their organisations and activities. Sharing, volunteering and participating is what makes DLR County a great community and place to live in.

In February as the war in Ukraine the began, we watched the horrific pictures. When women and children fleeing the war arrived in Ireland the DLR community was asked to assist. You opened your doors, made donations, fund raised to provide much needed items. Member groups provided English lessons, places to meet, coffee mornings, opportunities to participate in sport, whilst those who speak Ukrainian and Russian volunteered to assist by translating.

Thank you to our DLR PPN Representatives who sit on the committees of the local decision-making bodies for giving of your time and energy to represent the views of the DLR PPN member groups in local decision making through the Strategic Policy Committees.

DLR PPN is run by a voluntary secretariat and is supported by one full time and one part time staff members to whom we are indebted for their commitment and dedication.

Finally, we wish to acknowledge and thank DLR County Council and Southside Partnership for their continued support.

DLR PPN Representatives

We are fortunate to have representatives who work hard and give freely of their time to represent the PPN on the many committees in Dun Laoghaire Rathdown. We want to take this opportunity to acknowledge and thank you for your hard work and participation in 2022.

Building Capacity

In 2022 DLR PPN provided 11 different training programmes over 22 sessions with 223 registered participants. The high numbers attending training during 2021 reduced reflecting a return to pre covid levels.

This training is provided to help strengthen the capacity of communities and of the environment, social inclusion community and voluntary groups to contribute positively to the community in which they reside/participate.

- Dedicated web page for those aiding Ukrainians in DLR
- DLR Community Forum
- Circulation of information on supports available.
- Circulation of appeals for accommodation, volunteers, and donations.

Workshops

Climate Conversations Workshop and Report

Facilitators: DLR PPN Secretariat Members, Bill O'Dea, Crann Trees for Ireland and Gavin Harte Friends of the Earth

The Climate Conversations have been designed to ensure reach to as broad and wide-ranging an audience as possible across the whole of Ireland. In June 2022 we held our DLR PPN Climate Conversation where the participants discussed the following themes:

- **Climate Literacy** - Understanding how aware public groups are of what needs to be done/ what can be done and how to do it to achieve carbon neutrality.
- **Just Transition** - Understanding where government and local authorities need to be providing support to ensure that the transition to climate neutrality is fair equitable and inclusive.
- **Transport and Travel** - How do people in your area get around? What are people doing to reduce their climate impact from travel? If so, what motivates you? What are the main barriers from travelling more sustainably?
- **Energy** a) Homes & Retrofitting, b) Offshore Generation - What people are doing at home with regards to retrofitting and upgrading existing houses to improve energy efficiency. What is the public sentiment towards Offshore Generation.

- **Food, Waste & Retail (Circular Economy)** - Supporting Ireland to move towards a more circular economy, by making products that last longer and can be repurposed. Initiatives in your area – what you'd like to see, what works well, what you'd be willing to do to reuse and recycle more.

Feedback was gathered and the report generated was submitted to the Department of Environment Climate and Communications.

ENERGY WORKSHOP

Tuesday
6th December
7pm

STEPPING STONES
to energy efficiency

DLR PPN
Dún Laoghaire-Rathdown
Public Participation Network

Stepping Stones to Energy Efficiency

Hosted by DLR PPN secretariat Member, Gavin Harte Friends of the Earth

Participants were given the opportunity to find out about Sustainable Energy Communities and the steppingstones to energy efficiency.

This workshop offered home energy tips and tricks, retrofitting advice, and why working together as an energy community has come of age.

Vision for Community Wellbeing Statement Pre-Launch DLR PPN Representatives Workshop & Round Table Discussion

Facilitators: DLR PPN Secretariat Members Aileen Eglinton Kilternan Glenamuck Residents Association, Tony McCarthy Dun Laoghaire Active Retirement Association

This workshop explored the key findings of the Vision Statement and how the information that was collated during the process is a valuable resource to assist them in their rolls and DLR PPN Representatives on committees of the local decision-making bodies. *Presentation by Aileen Eglinton*

This was followed by a round table discussion where ideas and experiences were explored and shared. *Round Table Facilitated by Tony McCarthy*

DLR PPN Vision for Community Wellbeing

In December 2022 the DLR Public Participation Network launched its Vision Statement for Community Wellbeing including key findings and themes communicated by their members.

The report, mandated by the Department of Rural and Community Development, identifies core issues that member groups and the wider DLR community consider important for their community to be “The best that it can be for this and future generations”.

Key Findings:

- Taking care of our natural assets – parks, coast, heritage, etc. in the county – from both an environmental and asset preservation perspective.
- Community places and resources.
- Transparency in local government – with good communication and engagement.
- Inclusion – Age, youth, and disability inclusion coming out strongest.
- Encouraging Volunteerism – especially youth volunteerism.

With 568 Member groups in Dún Laoghaire Rathdown PPN and 32 Reps on County Committees here, this Community Wellbeing Statement is representative of the feelings and aspirations of citizens of our county.

The findings, which were responded to under 6 headings, all have common threads as can be seen! Threads which DLR PPN, its secretariat, and indeed its members will gladly want to be highlighted, at both local and national level.

Health, Physical and Mental.

Social and Community Development.

Participation Democracy and Governance.

Values Culture and meaning.

Economy & Resources.

Environment and Sustainability

These findings, representative of everyone in Dún Laoghaire Rathdown, will come as no surprise to most of our citizens. These issues and the search for Community Wellbeing has been expedited by community issues around Covid, and how the community responded, both individually and as groups, to coping with Covid and its continued aftermath.

How did we do this?

The consultation period ran from the 27th of September 2021 to the 8th of November 2021. During the consultation period, we hosted a series of 9 workshops with over 70 participants and launched a survey that received over 330 submissions. In Spring 2022 a further consultation period was held this ran from 13th April to 4th May 2022 where we sought feedback on the Draft Vision and invited members and the people of Dun Laoghaire Rathdown to join one of the two online workshops which were held on, 26th & 28th April 2022 there was also the opportunity for those who could not attend to provide feedback by making a submission to an additional online survey or they could the print and complete the survey form and return it by post.

The additional feedback was collated and incorporated into the Vision statement which was brought before the Plenary in June 2022 and ratified by the DLR PPN Membership. <http://dlrppn.ie/wp-content/uploads/2022/12/Vision-Statement-Ratified-22-June-2022.pdf>

DLR PPN Vision Statement

Environment & Sustainability

DLR will rise to the challenge to address Climate Change by preserving and protecting our natural environments for future generations to enjoy, by taking pride in our natural resources and ensuring that they are well looked after. Educate the community about sustainable living, make efforts to lower our carbon emissions by using sustainable and active transport.

Values, Culture & Meaning

Dun Laoghaire Rathdown is an inclusive open community where people respect, enjoy and celebrate the diverse culture of its members, valuing its traditions and heritage and the Irish language. Where a shared value of respect means that places, properties and public spaces can be all enjoyed together. A community where creativity and culture are supported and nourished.

Health - Physical & Mental

A community with a holistic approach to health and wellbeing. A positive environment where all are cherished and nurtured, where equal opportunities and inclusion are the norm. A community where its members' needs are prioritised and fully resourced, to ensure that everyone has equal and timely access to appropriate medical, patient-centred care.

Participation, Democracy & good Governance

Dun Laoghaire Rathdown operates an inclusive model of democracy with an emphasis on community leadership. One where more women and young people are encouraged to participate in local decision making. A place where its citizens of all ages, young and old feel empowered to participate. DLR PPN continues to function as the conduit between the Local Authority and the community. Dun Laoghaire Rathdown is a county where listening is important; its county council actively consults, listens to and fully informs the community on its plans and continues to seek the opinions and views of the community as a whole.

Work, Economy & Resources

An affordable and pleasant place to work and live and where everyone is supported to live in the area. The availability of resources and the facilities such as broadband and services to facilitate home/blended working and housing that is affordable. The transport system is reliable and connects people living in the area to local facilities such as hospitals and schools and a shuttle service linking local towns and villages. DLR will be an innovative model of the 15-minute city. Young people will be supported in education and resources distributed fairly to ensure all in the community have equality of opportunity to thrive economically. There are supports available to businesses both financial and training to assist local businesses to support persons into employment who may need additional assistance.

Social & Community Development

A safe tolerant society where inclusion is the norm, one where each individual is nurtured and given the opportunities and supports needed to realise their full potential. This will be a community where there is affordable suitable housing, with community spaces such as gardens and centres where the community can meet to engage in sporting activities, socialise, and learn and where information on the supports available is easily accessed. There will be an emphasis on biodiversity, and the environment will be clean and litterfree. Transport will be accessible and provide easy access to the whole county, not just the city centre. All the supports required for families and carers young and old will be readily available within the community and easy to access.

Consultations and Participation

We informed and invited members to become involved in a wide variety of local and national Public Consultations and opportunities to participate in local decision making on matters such as;

- *Active Travel Improvements: Deansgrange Cycle Route Scheme*
- *Active Travel Improvements: DLR Central*
- *Call for Expert Evidence 2022 for Climate Action Plan*
